Launder articles before reuse and discard saturated articles that cannot be cleaned thoroughly.

General Handling Procedures: Wear water/oil resistant gloves and protective clothing. (Nitrile or Neoprene). Wear chemical goggles with side shields. Keep containers closed when not in use. Keep away from flames, sparks or hot surfaces. Never use a torch to cut or weld on or near containers. Empty containers contain product residue which may exhibit hazards of the product. Maximum handling temperature has not been determined. Use only outdoors or in a well-ventilated area. Indoor use: Provide adequate ventilation, including appropriate local extraction.

Storage Procedures: Do NOT store near potential sources of ignition. Rotate stock. Store in clean, dry containers at ambient temperatures and it should remain stable unless it is contaminated. Do NOT store at temperatures great than 120°F (49°C). Maximum storage temperature has not been determined. NFPA Class III-B storage.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Ventilation Procedures: Minimize breathing vapor, mist or fumes. Use with adequate ventilation to control vapor concentrations.
